

## **Synta Pharmaceuticals to Present at Future Leaders in the Biotech Industry Conference on March 29, 2007**

March 27, 2007

LEXINGTON, Mass.--(BUSINESS WIRE)--March 27, 2007--Synta Pharmaceuticals Corp. (NASDAQ: SNTA), a biopharmaceutical company focused on discovering, developing, and commercializing small molecule drugs to treat severe medical conditions, today announced that it will be presenting at the upcoming Thomson Financial and BioCentury Future Leaders in the Biotech Industry Conference. Safi Bahcall, Ph.D., President and CEO, will discuss the Company's oncology and inflammation drug discovery and development programs including the clinical development and novel mechanism of action of STA-4783, as well as provide a general corporate overview. The Synta presentation will begin at 3:00 PM (EST) on Thursday, March 29, 2007 and the Conference will be held at the Millennium Broadway Hotel in New York.

The presentation will be available via live audio webcast on the Company's website at [www.syntapharma.com](http://www.syntapharma.com).

### **About Synta Pharmaceuticals**

Synta Pharmaceuticals Corp. is a biopharmaceutical company focused on discovering, developing, and commercializing small molecule drugs to extend and enhance the lives of patients with severe medical conditions, including cancer and chronic inflammatory diseases. Synta has a unique chemical compound library, an integrated discovery engine, and a diverse pipeline of clinical- and preclinical-stage drug candidates with distinct mechanisms of action and novel chemical structures. The company's lead drug candidate, STA-4783, is an oxidative stress inducer which recently completed a double-blind, multi-center randomized Phase 2b clinical trial in metastatic melanoma and will be entering Phase 3 development in 2007. All Synta drug candidates were discovered and developed internally. For more information, please see [www.syntapharma.com](http://www.syntapharma.com).
